> OUR STORY

Angelus Shoe Polish was not even a dream when the young Greek immigrant, Paul T. Angelos, arrived at Ellis Island. Making his way to Chicago, Paul shined shoes and saved enough money to go to Los Angeles. After arriving in Los Angeles penniless, he secured a job at a large shine stand. Paul saved enough money to open his own shine stand. Through hard work and long hours, he was able to send money for his brothers, George and Louie, to join him. Soon there were 14 employees and three shine stands; Sixth Street – opposite the Hayward Grill, Fifth Street – opposite the Alexandria Hotel, and one next door to The Pantages Theater. After being crowned, “King of the Bootblacks”, Paul was able to make the return trip to Greece to marry his sweetheart. Many years later, Paul would tell his grandchildren what an experience it was to return to Greece on the Ocean Liner, Mauritania First Class, which was the same ship that brought him Steerage to American years before. How fortunate his family was to be able to come to this country where freedom, success, and happiness were possible through honesty and hard work.

Arriving back in Los Angeles with his bride, the decision was made to start making a few items to use on their shine stands. Soon, other bootblacks started wondering what the Angelos boys were using on their shine stands and started asking where they could buy some.

The demand for Angelus products started to grow until the poor kitchen stove could not keep up with demand. A small shop was then opened on Winston Street. The brothers, cousins, and brother-in-laws, all split time between their shine stands and their new manufacturing plant.

It was not long before the plant demanded full time attention. The decision was made to sell the shine stands and devote all their energies into making shoe polish. Some of the family worked in the plant while others took to the road where they covered the country with their sample cases. When necessary, they rolled up their shirt sleeves and worked in the repair shops or shined shoes to demonstrate the quality of the Angelus products. In 1917, the Angelus trademark was registered. In 1924, a new five-story plant was built on Maple Avenue in Los Angeles. In the early

1930's, Paul's son George joined the family business on a full time basis. Demand continued to grow for the Angelus products throughout the 1930's and 1940's.

At the end of World War II in 1947, with most of the principles of the business reaching well into retirement age, a decision was made to sell the business. The Angelos "boys" retained the building so the new owner of Angelus, moved to the former Santa Cola bottling plant in Culver City California. Many changes were made to Angelus, sadly none for the good. The new owners felt that more money should be made and why use the expensive ingredients in the shoe polish. As a result, a good business with a reputation for unmatched quality and service was brought down to almost nothing.

In 1953, Paul and his son George bought back Angelus Shoe Polish. They went to what they knew best – honesty, quality, and hard work. Any merchandise that was defective was taken back and refunds or new product delivered. Sid Solomon, their salesman would question Paul, *"You cannot take back this much merchandise, especially products that you did not even make!"* Paul's reply, *"It has our name on it and we will make it good. It matters little who actually made it!"* As a young boy, my first job at Angelus was working beside my father and grandfather washing out hundreds of thousands of bottles of returned merchandise. We were the only plant employees. Finally after mastering the art of bottle scrubbing, I graduated to packing and mixing.

The only equipment we had in those days was the cooling tunnel for paste polish, one old noisy cream mixer, a few tanks, and wooden paddles for mixing. Filling the product was done with a hose and funnel. Capping was done by blistered hands.

Slowly but surely the demand for Angelus grew again. Soon additional machines were bought and employees hired. Angelus remained in Culver City for 59+ years before moving to a larger facility in Santa Fe Springs, California.

Today, as the last original shareholder of Angelus Shoe Polish, I am as proud of our product and reputation as my grandfather was the first time he touched his fingers to a can of polish, shined a pair of shoes, and was flipped a dime for a job well done. It is my promise to

all my family that have been involved at Angelus Since 1907 that we will not compromise the basic principles on which our company was founded:
Honesty, Hard Work, Quality

PAUL G. ANGELOS,
President

Angelus[®] Acrylic Leather Paint

Available in a variety of standard colours, as well as neons and metallics, and even glow in the dark. Ideal for painting sneakers, boots, jackets, athletic shoes, purses, furniture and more!

Can be used on any type of shoe or leather item from Lebrons, Jordans, KDs and Kobes, to all canvas shoes, sport shoes, dress shoes and even heels! With proper preparation it can adhere to ANY surface.

Colour Chart

WHITE	FLAT WHITE	LIGHT GREY	BLACK	FLAT BLACK	BROWN	BEIGE	LILAC	PURPLE
BLUE	LIGHT BLUE	PALE BLUE	TURQUOISE	GIFT BOX BLUE	GREEN	LIGHT GREEN	YELLOW	ORANGE
FIRE RED	RED	HOT PINK	PETAL PINK	CREAM	BONE	MINT	AVOCADO	
NEON	JAMAICAN JOY	POPSICLE GREEN	TROPIC SUN

COLLECTOR EDITION	WHITE CEMENT/GREY	SHADOW GREY	YEEZY BLUE	UNI BLUE	MID - NAVY 8	VOLT	JOKER GREEN	THUNDER YELLOW
	SHATTERED ORANGE	INFRARED	VARSITY					

When properly applied, Angelus Leather Paint will not crack, peel, fade, or rub off.

Not only are Angelus paints water-based for easy clean up, they can also be mixed together for countless custom colours. They can be applied with a fine brush, sponge, airbrush (some thinning may be required depending on the colour) or whatever! A 1oz. tub offers more coverage than one would expect - it's normally enough to cover up to 3 pairs of shoes.

The world-leader in custom leather colourings, Angelus paints utilise a flexible, self-levelling, non-cracking formula that adheres to multiple surfaces such as leather, vinyl, patent leather, canvas, denim, fabrics, wood, glass and more, when prepared properly.

Angelus[®] Preparers, Additives & Protective Coatings

Preparer & Deglazer

1 oz. LPA820-000

5 oz. LPA820-004

Angelus Preparer & Deglazer was specially developed to prepare leather for painting (new or used). Removal of dirt, grease & factory finishes ensures adhesion and prevents cracking. This step is essential for a durable result, so be thorough. Apply with a cotton-wool pad or cloth.

Important: use only on leather, not on plastic, rubber or other materials. If you are painting non-leather products, clean them thoroughly with soap & water.

Duller 1 oz.

LPA722-000

Duller can be mixed with Angelus Acrylic Leather Paints to reduce their sheen and make them less glossy once dry.

Perfect if you want the "Matte" or "Flat" look. Mix no more than 8% duller into your paint solution.

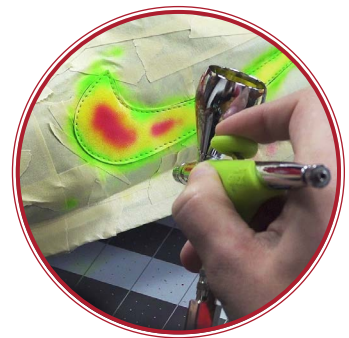

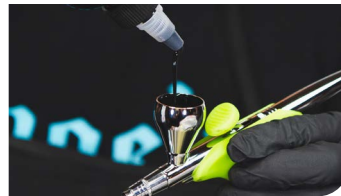

Duller also works well when mixed with Angelus Acrylic Finishers or 4-Coat protective coat.

2-Thin 1 oz.

LPA720-000

Angelus 2-Thin will thin out our paint without diluting colour. It prevents clumping on mesh surfaces, and is essential for airbrush & paint marker use. Mix Angelus 2-Thin with Angelus Acrylic Paints in a 1:4 ratio.

2-Hard 1 oz.

LPA722-HARD

Mix Angelus Acrylic Paints with 2-Hard to allow them to adhere to non-porous surfaces such as plastic, glass & other hard surfaces. 2-Hard promotes adhesion and film hardness. Apply multiple thin coats until you obtain full and even coverage. Allow to dry for 48 hours.

Flexible surfaces: 50% paint / 50% 2-Hard
Rigid surfaces: 25% paint / 75% 2-Hard

2-Soft 1 oz.

LPA722-SOFT

Angelus 2-Soft is essential when working on soft fabrics such as clothing or sock-liners. When heat-set properly, this Fabric Medium will help keep your fabrics soft, breathable & flexible after being painted.

Mix Angelus 2-Soft with Angelus Acrylic Paints in a 1:1 ratio.

Apply multiple coats until you obtain full and even coverage. Heat-set once dry (hairdryer for 3-5 minutes).

After using Angelus Acrylic Leather Paint, apply either Angelus Acrylic Finisher or Angelus 4-Coat to your custom project to help protect the paint and give it an attractive, uniform finish.

Acrylic Finisher will protect from minor scrapes, but Angelus 4-Coat is formulated to be the most durable, flexible, and scratch resistant clear coat on the market. This urethane-based top coat can withstand most scratches & scrapes to help keep your project looking its best!

If using the Matte Finisher, be sure to shake the bottle well before use (for at least one whole minute). Duller may be added to each finisher/4-Coat for a more Matte shine. We do not recommend adding more than 0.125 oz of duller to a 1 oz bottle of finisher.

Acrylic Finisher 1oz.

RESTORATION

SOLE BRIGHT YELLOWED SOLE RESTORER

115ml
LPA876E-04

Bring your yellowed soles/midsoles back to life with this amazing product! Completely reverses oxidation that usually occurs on rubber soles. Safe for all soles including Glow in the Dark (will not hinder glow). Multiple sessions are necessary for clear/icy soles and older shoes.

Create your own Sole Dye:
Mix 50% Sole Bright with 50% Angelus Leather Dye or Suede Dye.

MIDSOLE COLOUR RESTORER - BRIGHT WHITE

100ml
LPA320-03

Angelus Instant Midsole Color in Bright White is expertly formulated to safely restore your midsoles to a vivid white color. This midsole cleaner & whitener product works wonders on various types of footwear, including sneakers, dress shoes, boots, and more.

Whether you're looking to refresh your favorite pair of white sneakers or add a touch of elegance to your dress shoes, this versatile product is the perfect solution.

PAINTABLE LEATHER REPAIR FILLER

60ml
LPA723-02

Mixable with Angelus Leather Paints to aid with seamless repairs. Can be used to repair holes and scratches in most sneaker midsoles. Dries to a flexible finish to help prevent future cracks and tears. Works great on leather (Natural, Patent, Vegan, Bonded, Faux, PU), vinyl, foam, pleather & more.

WALK ON - RED SOLE PAINT

60ml
LPA720-02

This is a stain type paint with an additional hardening agent specifically formulated to paint the bottom of hard-soled shoes such as leather soled shoes, dress shoes, or heels.

SUEDE RENEW PUMP

4oz
LPA894-04

Angelus Suede Renew rejuvenates suede & nubuck while helping to restore color.

For use on most suede materials where nap has become rigid and/or faded.

MINK OIL PASTE

3oz Tin
LPA9913MO100

Mink oil has been used for years in many industries to condition and protect leather. So whether you have a brand new pair of leather boots, or you want your favourite pair of sneakers to last, Angelus Mink Oil paste is for you. It helps prevent stains and conditions and extends the life of your leather. Proudly made in the USA.

LEATHER CONDITIONER

8oz
LPA215-08

Safely cleans, preserves, & conditions all smooth, exotic and naked leathers. Help revive old leather and give new leather longer life! Provides essential care for your leather goods, keeping them soft and supple.

Ideal for maintaining the natural sheen of leather shoes, bags, and more. A trusted leather shoe care solution that combines cleaning and conditioning for lasting results.

WATER & STAIN REPELLENT

6oz
LPA851-WVS

When properly applied, Angelus Water & Stain Repellent will provide an invisible protective coating that repels water & stains to keep shoes clean and dry.

Surface to be treated must be clean and dry. Apply 2-3 light and even coats to the desired area. Allow about 30 minutes of dry time in between coats and let completely dry before wear (at least 12 hours). Wipe off any excess with a microfiber towel to remove any added shine.

CLEANERS

				
BLUE FOAM CLEANER 8OZ	GEL CLEANER 3OZ	FOAM-TEX 5.7OZ	EASY CLEANER 8OZ	EASY CLEANER KIT
Keep your sneakers, boots, and leather goods looking fresh with Angelus Blue Foam Cleaner, the all-purpose foam formula trusted by sneakerheads, cobblers, and leather care professionals. Specially designed to remove dirt, stains, and grime without damaging delicate materials, this cleaner is powerful enough for tough messes yet safe for suede, nubuck, canvas, vinyl, straw, and more.	Easy Gel Cleaner is a simple-to-use all purpose shoe cleaning product, perfect for everything from leather to canvas and more. Simply press down, squeeze, and work into the desired area. This all-purpose cleaner wipes off clean leaving behind no dirt or residue!	Angelus Foam-Tex Foaming Cleaner is the fastest and easiest way to keep sneakers and shoes looking fresh. The pump-action dispenses a controlled foam directly onto your footwear, eliminating the need for bowls, mixing, or wasted product. The gentle formula lifts dirt and stains without soaking or damaging delicate materials, making it ideal for quick cleanups and on-the-go use.	Angelus Easy Cleaner is the all-in-one solution for cleaning shoes, sneakers, and leather goods. Formulated to be tough on dirt and stains while staying gentle on delicate materials, this cleaner is trusted worldwide by sneakerheads, cobblers, and leather care pros.	The Angelus Easy Cleaner Kit is the go-to solution for keeping all types of shoes, boots, and leather goods spotless. This kit delivers safe, effective cleaning power on a wide variety of materials. Paired with the premium cleaning brush and microfiber towel, this kit provides everything you need to restore and maintain footwear, handbags, jackets, and other leather goods.
